**MOBILE SCRAP SHEAR**

# MSS-24

## MOBILE SCRAP SHEAR - MSS

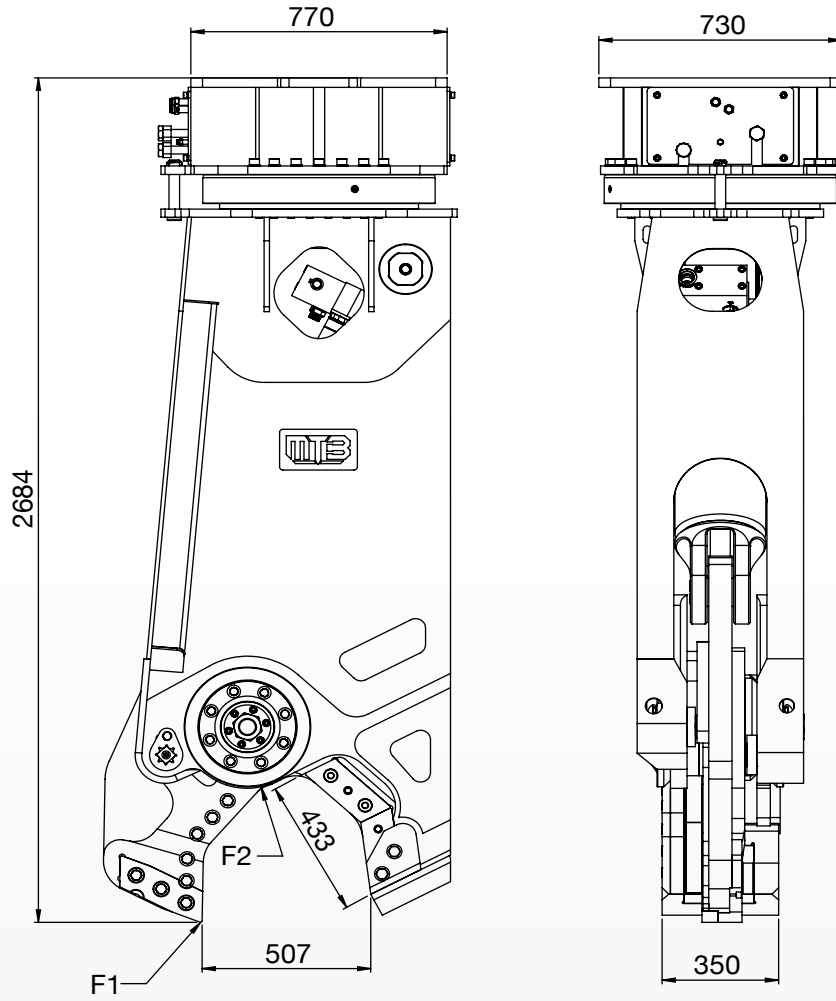

MTB Metal Cutting Shears; It is used in cutting and demolition of various types of metal materials such as steel bars, pipes, steel sheets, profiles. In addition to its strong body and jaws produced with Hardox® sheets, it is a long-lasting attachment with its 4-way usable blades. It can be mounted instead of the arm or bucket of the excavator. Its body has a 360 degree rotation system.

# TECHNICAL INFORMATION

## MSS-24

Working weight	kg	2450 - 2700
Oil flow (Cylinder)	lpm	200 - 250
Pressure (Cylinder)	bar	350
Oil flow (Rotation)	lpm	20 - 40
Pressure (Rotation)	bar	150 - 160
Cutting force (F1)	t	96
Cutting force (F2)	t	400
Jaw opening	mm	507
Jaw depth	mm	433
Overall length	mm	2684
Carrier weight	t	28 - 50
Carrier Weight (Arm Position)	t	18 - 27
Cylindrical Steel Bar	mm ●	60
Square Steel Bar	mm ■	45
Sheet Steel	mm —	18
IPE	mm I	350
HEA	mm I	220
